

## LLP's NEW Online Peer Review Summary Outcomes Survey: FAQ

### Where do I find the new online peer review summary outcomes survey?

You can find the new survey here: <https://www.lincolnshire.gov.uk/llp/sponsored-initiatives/peer-review/130937.article>

Just scroll down to the bottom of the page where it says "Related Links" and follow the link to the survey "LLP Peer Review Outcomes Summary Survey 2016-17".

### Please explain the ratings scale for the attributes?

The five-point ratings scale for the attributes, from very poor to very good should be interpreted as follows:

Very Poor	Poor	Average	Good	Very Good
This theme/attribute needs additional support from beyond the partnership. For example, a school might benefit from further Teaching School provision in this area.	This theme/attribute needs support from within the partnership of schools or from the sector.	Rate this theme/attribute as average if the school neither excels nor requires improvement, OR if the area is not applicable in your peer review.	This theme/attribute is strong and is something the School would like to celebrate.	This theme/attribute is a distinct strength based on the peer review and you would be happy to support other schools in this field.

### What should I do if I can't rate my school on any of the attributes because they're not relevant?

In this case, please select "average" as your response.

### What should I write in the free text boxes that pop up when I rate my peer reviewed school?

The information you put in the free text boxes will help build a directory of strengths and areas of improvement. Please feel free to provide a few **keywords** to explain how a school excels in a particular area or where it might need improvement. You do not need to write full sentences; simple keywords will suffice. Also, please note that we are only asking for this additional detail **for up to three** areas of excellence or improvement each. You do not have to take the time to populate each and every text box! If you wish to move on, simply type "NA".

### Why are you using a five point rating scale rather than the more familiar Ofsted categories to assess schools against the nineteen attributes listed in the survey?

We designed the new online peer review feedback survey based on feedback received from headteachers at the Autumn 2016 Headteacher Briefings. Specifically, you asked us to for more rigorous data, more detail on strengths and areas of improvement across Lincolnshire, and a way of locating schools who may be able to share best practices and innovative techniques in specific areas. A five-point scale will be able to best deliver this information. Moreover, you also asked us to stay away from more familiar Ofsted categories to prompt schools to take a fresh look at peer performance.
